

POSITIVE BEHAVIOUR SUPPORT

Focusing on your strengths, respecting your rights, and helping you increase independence and connection.

WHAT IS POSITIVE BEHAVIOUR SUPPORT?

Positive Behaviour Support, or PBS, aims to help you improve your life, by exploring why behaviours happen, and finding better ways to meet your needs. PBS is based on evidence, and is part of the National Disability Insurance Scheme (NDIS).

We partner with you, your family, and your support team to understand what matters most to you. Together, we design ('co-design') a plan that may include learning new skills, making changes to your environment or providing guidance to you and your support team.

Our goal is to reduce restrictive practices and promote choice, dignity and meaningful participation in the community, at school, at work, and at home.

WHO WE SUPPORT

We work with people of all ages, from young children through to older adults. We can support people with:

- Autism Spectrum Disorder (ASD)
- Attention Deficit Hyperactivity Disorder (ADHD)
- Psychosocial Disability
- Intellectual Disability
- Acquired Brain Injury (ABI)
- Dementia.

OUR LOCATIONS

We support clients across Adelaide, up to the Barossa and down to Victor Harbor, providing services in homes, schools, workplaces, community settings, and via telehealth.
