

What are Community Hubs?

Community Hubs are safe and welcoming places at local schools where everyone can make new friends, share, learn, and feel supported.

The Hubs connect families with other families, their school, and services; support English language skills and pathways to employment; and help parents engage with their children to support early learning and development.

What happens at Community Hubs?

Activities such as:

- Parenting classes
- Playgroups
- Breakfast clubs
- Support for Mums
- Adult English classes
- Early learning & development
- Art & Craft groups
- Vocational pathway training
- Referrals to local services
- and more...

Community Hubs & Lutheran Care

Lutheran Care is a proud partner of Community Hubs Australia and supports 10 Hubs at schools in Adelaide's northern suburbs, across the Cities of Playford, Salisbury and Port Adelaide Enfield.

Lutheran Care's Community Hubs Coordinator supports Hub Leaders, Hubs and schools to strengthen the services they provide. They help identify needs, build partnerships and connect Hubs with local opportunities and programs so families can access the support they need.

Who are the Hubs for?

While Community Hubs are for everyone, we have specific programs and support services for migrant and refugee families, particularly mothers with young children, as our primary client group.
